

DLA+ WIRELESS QUICKSTART GUIDE

4 * Ensure that the USB cable is firmly seated into the adapter's USB port

- 1 Close all other running applications
- 2 Insert the JPRO® Fleet Service Software Bundle CD or the DLA+ Wireless Driver CD into your CD or DVD drive. You can also download the latest DLA+ Wireless drivers from www.JPROFleetProducts.com
 - If using the software CD, the installation program will begin automatically. Click the Install DLA drivers button to begin.
 - If using the download drivers, begin the installation process by running the file you just downloaded
- 3 Plug the USB cable into the USB port on the PC

- 4 Connect the other end of the USB cable to the port labelled Computer on the DLA+ Wireless
 - If using Windows XP or 2000, the Found New Hardware Wizard is displayed.
NOTE: If the Found New Hardware Wizard fails to start, be sure that the USB cable is pushed completely into the adapter's USB port
 - When asked to connect to Windows Update, select "No, not this time" and click Next
 - Select "Install the software automatically" and click next.
 - Click "Finish" to complete the installation and click next.

NOTE: Refer to the JPRO DLA+ Wireless Configuration section of the JPRO® DLA+ Adapter Family User's Guide for information on configuring the adapter for wireless connectivity. Find the User's Guide by clicking on the Windows Start button, then select:
All Programs → Noregon → JPRO DLA+ Wireless Adapter
Click the JPRO® DLA+ Adapter Family User's Guide menu item
